The Standards and Regulations Glossary comprises a set of defined terms which are used in the Standards and Regulations. Terms being used in their defined sense appear as italicised text within the individual sets of provisions of the Standards and Regulations. The same terms in the Standards and Regulations may appear as italicised text in some cases but not in others. Where they are not italicised, for reasons relating to the specific context, they are not being used in their defined sense and take their natural meaning in that context.
